DCRP/MP/20/06 - Provision for Energy Storage Devices in the Distribution Code

The WG reconvened and agreed to proceed with the modification after reviewing the consultation responses. Considered responses to the consultation and an RTA have been included for submission to Ofgem for approval.

Review and update of P2 and EREC130

P2 Working Group presented the findings from the review to Ofgem on Ofgem and BEIS and provided the details on the modelling and decision-making process requested in order to understand the recommendations and to facilitate analysis of different scenarios. Proposal is now with Ofgem to review.

Modifications to the Distribution Code and Associated Documents for a No Deal EU Exit

Awaiting confirmation of Statutory Instruments detailing EU deal.

DCRP/20/05/PC - P18 Issue 2 Complexity of 132kV documents

The Draft EREC is entered final drafting, this draft EREC will be circulated to DNO's for feedback once complete before going for approval to consult in late Q2 this year.

DCRP/MP/19/09 EREC P24 Issue 2

Any further development to P24 will be delayed to align with P29 expected publishing – P29 is still currently under review. Issue 2 has seen the majority of members of the group in agreement, with a further update being provided by the end of February.

DCRP/MP/20/04 Data Exchange WG

The WG has reached agreement in principle for the schedules relating to DG connected at 1MW. Schedules are currently undergoing alignment with current week 24 NGESO requirements and the accompanying EREC is into the drafting phase.

DCRP/MP/21/01 EREC G100 Issue 2

The working group has been working on the draft EREC and has reached a point where a draft version can be circulated to members. The document position within DCode needs to be discussed; whether it remains outside the Annex framework (current position), or is added to the documents within the Annex.
