1.	<p>Welcome, Introductions and Acceptance of Agenda and previous Notes.</p> <p>Notes and actions document and agenda were reviewed by group and accepted.</p>		
2.	<p>Review Open Actions</p> <p>The actions were reviewed by the group, all completed actions were closed out still open actions remain on the actions list.</p> <ul style="list-style-type: none"> • Raise week 28 submission date with NGENSO and lobby for change from week 28 to week 32 • Check inclusion of 'NGET Peak' values in GC schedule 11 <p>An additional action was raised when discussing the type of document to be produced by this group; the members requested clarification on the different engineering documents types, EREC and ETR.</p>	<p>IP</p> <p>IP</p> <p>CM</p>	<p>Next GC WG Meeting</p> <p>19/10/20</p> <p>19/10/20</p>
3.	<p>Different Technology Types that need to be Reported by DNOs – ENA Storage WG</p> <p>A request from ENA's Storage WG to investigate different technology types to be reported to NGENSO, a decision was reached to provide a verbal update to the DCRP stating this WG will be looking into those technology types in relation to schedule 1 of this work.</p> <p>This will avoid duplication of work from the Storage WG. A confirmed list of relevant technology types will need to be agreed with NGENSO. IP will raise this with the NG and provide feedback at the earliest opportunity.</p> <p>It was proposed that the data for these schedules is to be recorded at the connection point of each installation.</p>	<p>IP</p>	
4.	<p>Agree Principle of Data Submission</p>		
4.1	<p><u>Schedule 5 – DER impact & Flow data</u></p> <p>The working group continued to discuss all feedback provided by members. The table was adjusted to suit the feedback received. Certain figures in this table (in brackets) need to be confirmed as calculated figures. IP to provide update on this after next GC meeting. The group discussed the need for forecast demand data tables off the back of the data required in Schedule 5. It was proposed this will become Schedule 6.</p> <p>The members proposed that a feedback log be produced for each schedule and the groups agreed responses be logged</p>	<p>IP</p> <p>CM</p>	<p>19/10/20</p> <p>Ongoing</p>

	against each item to be used in the creation of an accompanying guidance document to each schedule.		
4.2	<u>Schedule 4 – Non-Sync machine detail</u> The WG briefly discussed schedule 4 and the feedback provided. It was proposed to amend the current text which refers to GC clauses and replace them with technology types, then provide reference within the EREC document. The term SLD was mentioned and will be included.		
4.3	<u>Schedule 3- Sync machine detail</u> .The group discussed the definitions in Schedule 3 and how they would relate to systems in England and Scotland. It was proposed that row 9 in the current draft have Dcode references inserted. The WG is to review this schedule and provide feedback for further discussion at the next meeting.	ALL	19/10/20
