Teleconference number 020 3855 5885

Conference ID: 771 343 447#

DCRP/MP/21/04 - EREC G12 Issue 4 Amendment 2

Authority decision to approve this modification was received 17th January 2022. The document was then prepared for publication and was released Monday 24th January 2022, with a six month implementation date.

Version 48 of the Distribution Code of GB was published in-line with the release as proposed within the final report to authority.

DCRP/MP/21/05 - DCode Compliance

This modification final report is currently with the authority and awaiting a decision before progression. Version 49 of the Distribution Code of GB will be prepared for release dependant on the decision received.

DCRP/MP/21/07 - EU Exit Modification

The public consultation for this modification closed in January, with all responses currently being assessed, and a final report to authority being prepared for submission.

DCRP/MP/20/05 - EREC P18 Issue 2

Engineering Recommendation P18 was approved under self-derogation at December's DCRP panel meeting. as there are several other modifications ongoing the publication of this document will be held until the next version of the Distribution Code of GB is published.

DCRP/MP/19/09 - EREC P24 Issue 2

Any further development to P24 will be delayed to align with P29 expected publishing – P29 is currently undergoing review by members. P24 Issue 2 has seen majority of members of the group in agreement, with a further update being provided by the end of March.

DCRP/MP/20/04 - Data Exchange WG

The working group is focusing on the development of the guidance document, with meetings arranged to review the schedules before agreement. The members of the working group have discussed and agreed upon the implementation timeline in line with week 24 submission of data to NGENSO.

DCRP/MP/21/02 - EREC G100 Issue 2

The second consultation on this modification has closed, with the working group assessing the responses received. By-lateral talks have been held with BEAMA on their response with the working group due to re-convene in February to discuss.

Due to mixed feedback received on the placement of EREC G100 within the DCode Annex framework the administrator proposes this be discussed by the DCRP panel for a decision.
