Project / Document Update for the 104th Meeting of the GB Distribution Code Review Panel

**1st February 2024
Commencing at 12.30**

Microsoft Teams (use link on invitation)

Or use Dial-in details:

Teleconference number 020 3855 5885

Conference ID: 943 339 196#

DCRP/MP/20/04 - Data Exchange WG

The workgroup has carried out a review of the comments collated throughout the trial so far and has arranged a meeting with the INA to discuss the requirements and strengthen communication channels between the DNOs and IDNOs when exchanging information.

DCRP/MP/22/02 - Electricity System Restoration Standard (ESRS)

At the time of writing a decision from The Authority is expected 30th January 2024. Any further actions will be dictated by the outcomes of the Authority decision. If approved a revised version of EREC G99 will be issued and a copy of the DCode published.

DCRP/MP/22/05 - Customer Islanding

Development of the legal text is progressing. The workgroup is currently focused on developing a range of diagrams to provide clarity, and considering the compliance requirements for devices which facilitate customer islanded premises.

DCRP/MP/23/01 - Engineering Report (ERE) 28

Voltage fluctuations and the connection of disturbing equipment to transmission systems and distribution networks in the United Kingdom

The workgroup has begun engaging with industry stakeholders through dedicated meetings and will focus the guidance being developed to address any specific areas of P28 raised.

DCRP/MP/23/02 – Revision to the Constitution and Rules of the DCRP

A final version of the document has been submitted to The Authority for approval. Awaiting decision. Will publish version two of the document on the DCode website if approved.

DCRP/MP/23/04 – EREC P2/9 and EREP 130/5

Security of Supply

Work ongoing to develop draft proposals, the group currently considering proposed amendments to each document.

DCRP/MP/23/06 – EREC P24/2

AC Traction

This modification is progressing, engagement with National Rail is ongoing regarding the proposed amendments to EREC P24. Further updates will be provided.

DCRP/MP/23/07 – EREC P29/2

Planning Limits for Voltage Unbalance in the United Kingdom

This modification is progressing, system data is currently under assessment to further develop the legal text for EREC P29. Further updates will be provided.

DCRP/MP/23/08 – EREC G81

Planning Document suite - Parts 1 to 7

The initial review group has met and discussed the extent of amendments required to the suite of G81 documents, further updates will be provided.

DCRP/MP/23/09 – 2023 DG Connection Guides

Final revisions to the document's formatting are currently underway. Approval will be sort through correspondence.

EREC Document Designations

Designation	Subject Guidance
C	Cable
EB/TP	Electricity Board / Telecommunication Providers
G	Guidance
L	Lines (Overhead)
M	Maintenance
P	Planning
R	Reporting (NEDERS)
S	Switchgear
T	Telecommunication
